

ANS 6939 – AMCB Journal Colloquia
Meeting times to be determined

INSTRUCTORS:

Section 2E68 - Immunology

Dr. Corwin Nelson
Larson Dairy Science Bldg. – 204F
cdnelson@ufl.edu
392-1958 x266

Dr. John Driver
Larson Dairy Science Building – 204E
jdriver@ufl.edu
392-1958 x224

Section 2E69 – Embryology

Dr. Peter Hansen
Larson Dairy Science Bldg.
pjhansen@ufl.edu
392-5590

Office Hours: By appointment

CATALOG DESCRIPTION: CREDIT: 1; PREREQ: instructor consent.

Advanced discussion of recently published research relating to animal molecular and cellular biology.

COURSE FORMAT:

Student-led presentation of journal articles, followed by discussion of article by faculty and students on the objectives, methods, results, and implications of the article. Meetings held on a weekly basis for one hour at a time to be determined.

COURSE OBJECTIVES:

- 1) Develop abilities to critically evaluate peer-reviewed scientific articles,
- 2) Read and understand current research developments

EXPECTED OUTCOMES:

Students will be able to critically read and interpret scientific articles, and be informed of recent research developments in animal cellular and molecular biology

RECOMMENDED TEXT: NONE

GRADING: S/U, grading based on attendance, participation, and article presentation. Each student is expected to attend all meetings, with exceptions approved by the course instructor, present a journal article, and participate in class discussion.

Grades and Grade Points

For information on current UF policies for assigning grade points, see <https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

Absences and Make-Up Work

Requirements for class attendance and make-up exams, assignments and other work are consistent with university policies that can be found at:

<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.

Academic Honesty

As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: *"We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity."* You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: *"On my honor, I have neither given nor received unauthorized aid in doing this assignment."*

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g. assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see:

<http://www.dso.ufl.edu/SCCR/honorcodes/honorcode.php>.

Software Use:

All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

Campus Helping Resources

Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university's counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.

Services for Students with Disabilities

The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation
