Course Description
ANS3239L is designed to teach horse handling, management and riding skills required for proper daily horse care and conditioning. The material is appropriate for those seeking employment requiring horse care skills and for novice horse owners. Students will participate in a series of laboratory activities to increase their knowledge of equine behavior and horsemanship. The final third of the semester will involve practical equitation. The riding portion of this course is physically demanding and requires that students be able to mount horses unaided and maintain balance while riding.

Course Objectives
- Upon completion of this course students will have a better understanding of basic daily management techniques.
- Students will have an increased awareness of safe horse handling practices.
- This course will teach horse tack and equipment selection and care.
- Students will develop the base skills needed to tack, mount and ride a horse.

Academic Honesty, Software Use, Campus Helping Resources, Services for Students with Disabilities
Academic Honesty
In 1995 the UF student body enacted an honor code and voluntarily committed itself to the highest standards of
honesty and integrity. When students enroll at the university, they commit themselves to the standard drafted and
enacted by students.

The Honor Pledge: We, the members of the University of Florida community, pledge to hold ourselves and
our peers to the highest standards of honesty and integrity.

On all work submitted for credit by students at the university, the following pledge is either required or implied:
"On my honor, I have neither given nor received unauthorized aid in doing this assignment."

Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean,
Student Honor Council, or Student Conduct and Conflict Resolution in the Dean of Students Office.
(Source: UF Student Conduct & Honor Code, https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/)
It is assumed all work will be completed independently unless the assignment is defined as a group project, in
writing by the instructor.
This policy will be vigorously upheld at all times in this course.

Software Use:
All faculty, staff and students of the university are required and expected to obey the laws and legal agreements
governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual
violator. Because such violations are also against university policies and rules, disciplinary action will be taken as
appropriate.

Campus Helping Resources
Students experiencing crises or personal problems that interfere with their general well-being are encouraged to
utilize the university’s counseling resources. The Counseling & Wellness Center provides confidential counseling
services at no cost for currently enrolled students. Resources are available on campus for students having personal
problems or lacking clear career or academic goals, which interfere with their academic performance.
