*Minimum 2.5 GPA in Pre-requisite Courses Required for Transfer Admission
GPA is Calculated using UF's Grade Point System – All Attempts at a Course Count

**PLEASE NOTE:**
- This guide is intended to only serve as an eight-semester guide for incoming transfer students. Students still need to meet with their academic advisor at their state or community college to determine their individual academic plan prior to transfer admission.
- Remedial math and science courses may need to be taken before taking General Chemistry 1 and/or Calculus, which could impact a student’s individual academic plan.
- Although not required for transfer students, students may opt to take courses during summer terms to complete their degree requirements within the recommended time frame of four years.
- For most vet schools, students must have completed at least 80% of the pre-requisite courses at the time of application. This guide may need to be revised to meet this requirement. Please meet with your University of Florida academic advisor following transfer admission to determine your individual academic plan.
