***PLEASE NOTE:**

- This guide is intended to only serve as an eight-semester guide for incoming transfer students. Students still need to meet with their academic advisor at their state or community college to determine their individual academic plan prior to transfer admission.
- Remedial math and science courses not listed in the eight-semester plan may need to be taken before taking General Chemistry 1 and/or Calculus, which could impact a student's individual academic plan.
- Although not required for transfer students, students may opt to take courses during summer terms to complete their degree requirements within the recommended time frame of four years.
