ANS3319C – Reproductive Physiology and Endocrinology in Domestic Animals

**Instructors:** Dr. Saundra TenBroeck, Mr. Justin Callaham

**Office Hours:** M, W, F @ 10:30 a.m. TBA

**Location:** Rm 100 Animal Science Bldg. TBA

**Email:** sht@ufl.edu callaham@ufl.edu

**Phone:** 352-392-2789 TBA

**Graduate Teaching Assistant:** Juliana Ranches juranches@ufl.edu

**Lectures:** M, W, F (Period 3) 10:40 – 11:30 AM, Animal Sciences Room 156

**Labs:** Monday or Tuesday; 12:50 – 2:45 (Periods 6 & 7) or 3:00 – 4:50 (Periods 8 & 9)

**Course Objectives:**

1) Familiarize students with the reproductive anatomy, physiology, & endocrinology of male & female in avian and mammalian farm animals.

2) Introduce and discuss the interrelationships between reproductive hormones produced by the brain and reproductive glands and how they interact to control the reproductive processes of male and female domesticated farm animals.

3) Utilize the knowledge learned from Objectives 1 and 2 to introduce and discuss reproductive management practices that optimize reproductive efficiency of domesticated animals.

**Textbook:** "Pathways to Pregnancy and Parturition" (3rd Edition 2012, P. L. Senger) is strongly recommended since we will lecture directly from it in addition to extensive use of pictures & diagrams. There is a copy of the textbook on reserve in the Marston Science Library on main campus. A Lab Manual will be distributed in class and posted on Canvas. Students are responsible for reading handouts before lab and bringing handouts to lab.

**Grading & Exams:**
Your final grade will consist of lecture exams, online quizzes, lab exercises, and a comprehensive final exam. Actual grades on all exercises will be the sum of the points received for correct responses as a percentage of total points possible. Final course grades will be based on the following percentage grade scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>≥94</td>
</tr>
<tr>
<td>A-</td>
<td>90 to &lt;94</td>

ANS3319C - Fall 2017
### Final Grade Components

<table>
<thead>
<tr>
<th>Component</th>
<th>% final grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Three lecture exams (100 pts each)</td>
<td>45%</td>
</tr>
<tr>
<td>Four online quizzes (25 pts each)</td>
<td>15%</td>
</tr>
<tr>
<td>Lab grade (9 labs @ 50 pts each)</td>
<td>20%</td>
</tr>
<tr>
<td>Two lab exams (200 pts each)</td>
<td>20%</td>
</tr>
<tr>
<td>Comprehensive final exam (200 pts)</td>
<td>20%</td>
</tr>
</tbody>
</table>

Information regarding University Policy on grade point equivalencies and calculation of grade points is located at [https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx).

### Lecture Exam Dates:

Exam 1: Feb 8th (Friday); Exam 2: Mar 15th (Friday); Exam 3: April 12th (Friday).

Final Exam: May 2nd (Thursday @ 10:00-12:00 NOON).

Exam and quiz questions will be true/false, multiple choice, matching, short answer, and essay. For short answer and essay questions, a legible, organized, concise and grammatically correct answer will be expected in order to receive full credit. Outlining answers into pertinent points is acceptable and the suggested method of answering questions provided that the interrelationships between points are indicated. Lecture exams/quizzes will cover all material presented in the textbook, lecture, and lab take-home messages, and worksheets.

Quizzes will be taken online through Canvas outside of class. Approximately one weeks’ notice will be given for the due date of quizzes. Quizzes will be available online for a 72 hours period and can only be taken once.

### Important Dates:

- No class
- Jan 21 (Martin Luther King)
- March 4-8th (Spring Break)

Other significant dates:
- Jan 7th Class begins.
- Feb 1st Deadline to withdraw and receive a 25% fee refund (W assigned).
- April 12th Deadline to withdraw (W assigned)
- April 13-26th Faculty course evaluations available
- April 24th Last day of class.
- April 25-26th Reading days.
- April 27-May 3 Final exams.
- May 8th Final Grades Available
# Lecture Schedule

The schedule below is tentative in regards to the dates and topics to be covered, this schedule can change at the instructor’s discretion.

</table>
Lab Objectives:
To provide ‘hands-on’ experience dissecting and describing the gross anatomy of the hypothalamic/pituitary and reproductive systems of male and female farm animals.

To develop limited skills and understanding of the basic principles of collection, evaluation, extension, and freezing of semen from farm animals.

To introduce the concept of early embryonic development and provide hands-on experience dissecting pregnant reproductive tracts from the bovine and porcine.

To develop limited skills and understanding of estrous synchronization, artificial insemination, embryo collection, embryo freezing, reproductive ultrasonography, and pregnancy diagnosis in the bovine, porcine, and equine species.

Grading:
Lab is worth 20% of your final course grade.
Each lab is worth 50 points consisting of attendance (25 pts) and a weekly take home assignment (20 pts) due at the start of each lab and in lab activities (5 pts). You must be physically present in lab and hand in the take-home message to receive full credit. There will also be a mid-term practicum and final lab exam worth 200 points each.
Your lowest lab grade during the semester (excluding the lab practicum and final lab exam) will be dropped from your lab grade.

If you have 3 or more unexcused lab absences (after the drop) you will receive an “E” for the course.

Activities:
The primary objectives of lab are to provide hands-on activities with live animals, dissection of tissues harvested from deceased animals, and operating laboratory and technical equipment frequently used in reproductive biology. Throughout the semester, you will work with live cattle, pigs, and horses. Although domesticated, these animals are not “tame” like pets and they must be handled accordingly. All farm animals can be dangerous and cause injury to either themselves and (or) people if handled incorrectly. Although horses are typically gentle, they too can be dangerous to the uninitiated. Therefore, it is our responsibility to provide a safe teaching environment for livestock and students by using different restraining devices commonly used in animal production. Lab activities will also include dissection of tissues including the cow and sheep brain, female and male reproductive tracts, and other tissues obtained from the abattoir. You will be required to dissect and study these tissues in lab. The utilization of live animals and dissection of tissues are central to effective learning and enhancement of your lab experience.

For whatever reason(s) you feel you are unable to work with live animals and animal tissue used for dissection, and (or) participate in any lab activities you need to contact Dr. TenBroeck or Mr. Callaham at the start of the semester to discuss these issues.

Lab Policies:
There will be no make-up labs during the semester. Any lab missed for reasons other than those
listed below will not be excused and a grade of “0” will be recorded for the both lab and take-home message. You have to attend lab and hand-in your take home message in order to receive full credit for lab. All requests to be excused from a lab must be submitted to Mr. Callaham either in writing or requested by email. This policy will be strictly enforced.

Excused absences include: 1) Absence for a university-approved field trip or activity (must be cleared one week in advance). 2) Absence for a death (verification by obituary if requested) or serious illness in family. 3) Absence resulting from personal illness (verification consisting of a letter of explanation from hospital or doctor on official letterhead). Please review the excuse note policy of the Student Health Care Center (http://shcc.ufl.edu/forms-records/excuse-notes/).

If you need to attend a lab other than your scheduled lab, please contact Mr. Callaham either in person, or by email to request a change of lab giving a reasonable reason for the change. Failure to do so will result in a “0” grade for that lab. Request to re-grade a take-home message must be made within one week from the date the take-home message is returned in lab. Grade challenges must be submitted in writing, attached to the exam, and returned to the lab instructor.

**Locations:**
Laboratories will be held at several locations including room 155 Animal Sciences, Dairy Unit, Swine Teaching Unit, and Horse Teaching Unit. Please refer to the lab schedule to determine where lab will be each week. A map and directions can be found at the end of this syllabus and the course web page. Transport is NOT provided.

See map 'here' for location of all animal units:

![Dairy Unit Directions: Proceed down the long drive to the main building, which is at the end of the drive. At this point, the drive forms a circle in front of the main building and there is a sign with a painting of a Holstein in the center of the circle. You are there. Park your car in the parking lot on the left. You can wait for the start of class either outside the building directly](image-url)
behind the sign with the Holstein cow on it or in the classroom located inside the building. Do not park near the milking parlor (newer building).

ADDITIONAL COURSE INFORMATION

Academic Honesty:
As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.” You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment."

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g. assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see: http://www.dso.ufl.edu/SCCR/honorcodes/honorcode.php

Disability Issues:
The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. 0001 Reid Hall, 392-8565
www.dso.ufl.edu/drc

Software Use:
All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

Campus Assistance Resources:
Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university’s counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.
University Counseling & Wellness Center - 3190 Radio Road, 352-392-1575, www.counseling.ufl.edu/cwc/. Counseling Services, Groups and Workshops, Outreach and Consultation, Self-Help Library, Training Programs, Community Provider Database

Career Resource Center - First Floor JWRU, 352-392-1601, www.crc.ufl.edu

If you are having problems comprehending lecture and (or) lab material or have other academic, university, or personal issues that are affecting your academic performance, please feel free to visit with the instructors to address the problem(s). Please do not wait until the end of the semester to address any difficulties you may be having.

Online Course Evaluation Process:
Student assessment of instruction is an important part of efforts to improve teaching and learning. At the end of the semester, students are expected to provide feedback on the quality of instruction in this course using a standard set of university and college criteria. These evaluations are conducted online at https://evaluations.ufl.edu. Evaluations are typically open for students to complete during the last two or three weeks of the semester; students will be notified of the specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results.

Absences:
Requirements for class attendance and make-up exams, assignments and other work are consistent with University policies located at: https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx

Make-up work:
A student missing an exam will be allowed to make up the exam provided that a documented, valid reason for missing it exists (Please see valid excuses in lab section). Whenever possible, these problems should be discussed with the instructor in advance, preferably by email, excuse note, or hand written note. A missed exam with no valid excuse will be considered as a “0”.

Course Expectations:
Lecture and lab attendance are highly correlated with your final grade so it is expected that you attend both on a regular basis. Class and lab are “No Cell Phone Areas”. Class and lab decorum requires that you act socially, professional, treat fellow students with respect, and appreciate their viewpoints and beliefs.
